Worcester Industrial, 6850.

BENEFITS & FEATURES OF BURGLAR BARS

DURABILITY

Aluminium & Polycarbonate's strength and ensure long-lasting performance with minimal maintenance.

ENHANCED SECURITY

Provides a robust physical barrier that deters intruders and prevents break-ins.

DESIGN

Flat bars provide a sleek and modern appearance, blending well with various architectural styles.

EASY INSTALLATION

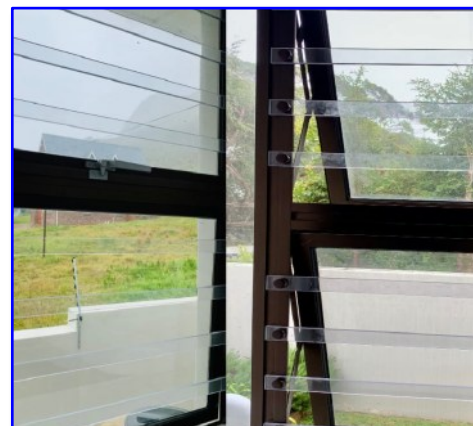

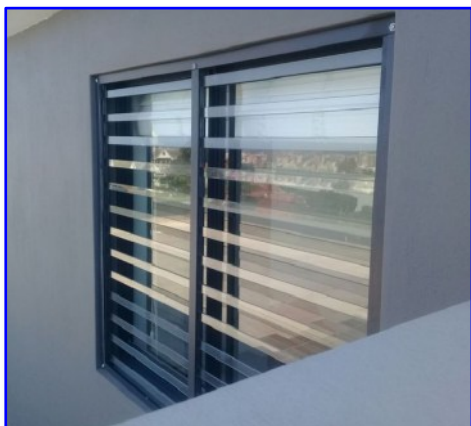

Lightweight and easy to handle, making the installation process quicker and more straightforward.

COST EFFECTIVE

Generally more affordable than other materials like stainless steel, offering a good balance between cost and security.

CORROSION RESISTANCE

Aluminium & Polycarbonate is naturally resistant to rust and corrosion, making it suitable for various weather conditions.

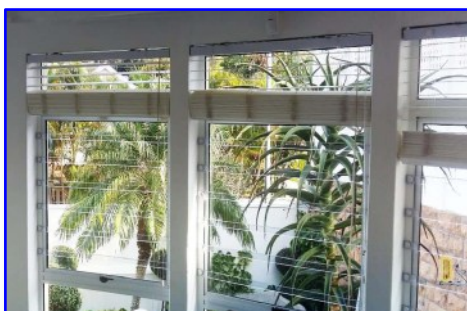

MATERIAL & FINISHES

ALUMINIUM BARS

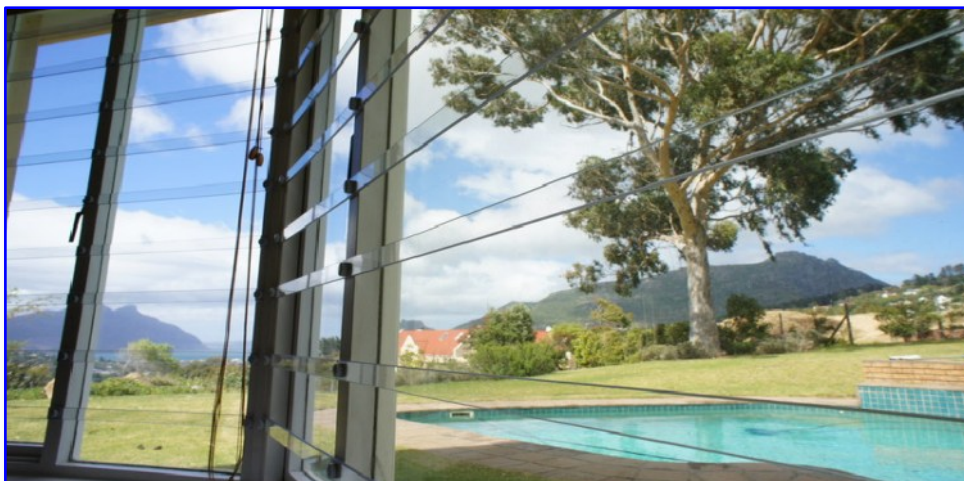

Made from high-quality aluminium, which is lightweight yet strong. Our standard colours are, Charcoal, White, Bronze, Matt Black & Stone Grey.

Custom colours available

POLYCARBONATE BARS

Made from high-quality polycarbonate, a type of thermoplastic known for its exceptional strength & transparency. It also provides a sleek & unobtrusive appearance, maintaining the aesthetics of your windows and doors.
